RAILROAD NEWS

The Alton is to lay new steel between Dwight and Cayuga over the north bound main, a distance of fifteen miles, and also between Shipman and Brighton, a distance of eight miles. The rail is now arriving from the Joliet steel mills and will be laid as rapidly as possible.

The Dwight accommodation is to be restored which will also prove welcome to the patrons north of that city and points north. This train was taken off by the Clover Leaf administration despite a storm of protest. President Worthington will be given a vote of thanks by all of the residents of Dwight for the return of this popular train. It will leave Dwight at 8 a. m. and reach Chicago at 10:15 a. m. Returning, it will leave Chicago at 4:15 p. m., carrying the car for Peoria, and reaching Dwight at 6:30 p. m. There will be slight shifts in Nos. 3 and 4 and other through trains, but the principal changes decided upon are restricted to those given. It will be a big job to make the various changes and many revisions will be necessary. The card when completed will be something like the popular schedule of two years ago but will be even better in many respects and with much greater train mileage. The Alton management could hardly make a move that would prove as popular as this improvement in the train service and advent of the new administration, promises to make the epoch in which they are in charge, the most popular in the history of the great corporation.

The winter time card of the Chicago & Alton, work upon which started Tuesday, is designated to take effect Sunday, November 10. The changes, as forecast in previous issues, will be the most radical in a number of years and will reflect credit upon the management. President Worthington has impressed it upon the passenger and operating departments, that he believes that nothing is too good for the Alton patrons and he proposes to give them the finest service ever enjoyed. He cannot supply everything that he has in mind just now as the equipment now owned by the company is not extensive enough to warrant all of the changes planned. New steel trains for the crack runs, which will probably be purchased next year, will permit the inauguration of additional local trains. The changes authorized at the present time are of a noteworthy character, however, and will be applauded by the traveling public from one end of the system to the other. Of particular interest to Bloomington is the restoration of the old Denver run which was taken off by the Clover Leaf administration and which removal has never been approved. This train will not run west of Roodhouse but will start from that city, reaching Bloomington at 9:25 a. m., and leaving at 9:30 a. m., reaching Chicago at 1:30 p. m. Returning, the Denver will leave Chicago at 3 p. m., reaching Bloomington at 7 p. m., departing at 7:10 p. m. for Roodhouse. The new time, an hour sooner than at present will be welcome to all local travel west bound. The Denver takes the place of the present Nos. 70 and 71 and will run daily. On the south end, No. 46 will be restored between Springfield and Bloomington, leaving Springfield at 7:30 a. m., and reaching Bloomington at 9:25 a. m. This train was taken off two years ago and No. 12, the Kansas City Limited, given all of the stops. In the new arrangement, No. 12 will stop only at Lincoln and will reach Bloomington at 8:15 a. m., 30 minutes earlier than at present and reaching Chicago much earlier, stopping only at Chenoa, Pontiac and Joliet. This does away with the local character given No. 12 and makes it far more popular with the through travelers.

Religion.

Religion is a thing that most men intend to acquire after they have succeeded in getting everything else they want.

"There could be no better medicine than Chamberlain's Cough Remedy. My children were all sick with whooping cough. One of them was in bed, had a high fever and was coughing up blood. Our doctor gave them Chamberlain's Cough Remedy and the first dose eased them, and three bottles cured them," says Mrs. R. A. Donaldson, of Lexington, Miss. For sale by all dealers.—Adv.

Fitting a Cork.

If a cork is too large for the bottle in which you wish to use it, lay it on its side, and with a little board or ruler roll it under all the pressure you can put on it, says an exchange. It will be elongated to fit in a very few minutes.

Effective Sunday, Sept. 15, 1912, and each Sunday thereafter, Chicago & Alton have \$1.00 excursion to Chicago, going No. 72, at 7:29 a. m., Sundays; returning, No. 5 and 71, same date at 4 p. m. and 9 p. m. H. L. Drennen, ticket agent.—Adv. 37-tf.

BIGGER BEEF PROFITS FOR YOU

If you want to know the best age at which to buy your feeders, the type best suited to feed out to prime beef, and the safe margin to buy on, you will find the answers in the article

The Steer that Makes 10-cent Beef
in this week's issue of

The COUNTRY GENTLEMAN
NOW READY

The author of this article is D. O. Thompson, cattle specialist at the Indiana Experiment Station. His facts were obtained direct from big cattle feeders who turn out record-priced beef and from a careful, exhaustive study of the beef market at Chicago.

Five Other Big Features in This Issue Are:

- Our Hundred-Million-Dollar Fire Waste**, by Harry Snowden Stabler, the insurance and financial expert. The first of a series of five practical articles which tell of the tremendous fire losses throughout the country districts of the nation, explaining the causes, showing how fires can be prevented and giving advice as to the best kind of insurance.
- Collies in Their Kindergarten**, by Charles A. Skins, of Oklahoma, an experienced trainer of sheep dogs. In two articles, Mr. Skins, who has had years of experience and who has been notably successful, tells how collie dogs can be trained into good sheep dogs.
- Post Mortem on Thirty Thousand Horses**, by Charles Dillon, of the Kansas Agricultural College. An account of the mysterious horse sickness during August and September and killed approximately 30,000 horses, entailing a loss of about \$3,000,000 in Kansas and the adjoining states.
- More Loaves for the Multitude**, by B. E. Powell, of the Illinois Experiment Station. A plan showing how the wheat crop may be increased so as to add millions of loaves to the world's bread-basket by breeding grains that are more vigorous and more productive.
- The Return to Eden**, by Caspar Day. A good love story. You will enjoy reading it Sunday.
- And in addition**, the valuable regular weekly departments, written by the foremost authorities in the country, dealing with these vital subjects: The Farm Business Forecast—a look ahead at business conditions; The Signboards of Science—significant facts about new and practical methods from progressive communities; The Political Situation, a Talk to Rural Voters—a clear and concise summary of State legislation affecting farmers and their interests; The Country Gentleman—interesting and helpful suggestions for improving the home life of the farm and lightening the wife's burden.
