The girls on the affirmative are representatives of the Benedict Society, while the negative side of the question will be taken by the Bernicians. The girls are working hard on the subject and are seeking to make the debate a serious one. It promises to be not only interesting, but instructive.

After the debate, the Bernicians will humorously continue their argument for woman's suffrage by giving the play "How the Vote was Won."

The Bernice Society, who have the program in charge, cordially invite all their friends to be present.

Royal Baking Powder Absolutely Pure

The Woman Makes the Home

She makes it best who, looking after the culinary department, turns her back resolutely upon unhealthy, or even suspicious, food accessories. She is economical; she knows that true economy does not consist in the use of inferior meat, flour, or baking powder. She is an earnest advocate of home made, home baked food, and has proved the truth of the statements of the experts that the best cooking in the world today is done with Royal Baking Powder.

RAILROAD NEWS

The annual report of the Chicago & Alton contains many statistics of interest. Freight traffic during the year amounted to \$9,311,818, an increase of \$96,646, or 1.05 per cent. The tonnage carried was 10,123,710, an increase of 639,092 tons, or 6.74 per cent. Commercial and industrial conditions in the territory served by the company during the past year have been generally favorable. The principal decreases were in products of agriculture and products of animals due, mainly to the light grain crop in Missouri, high prices of feed and general lighter movement of these commodities. The principal increases were in mine products, particularly soft coal, which moved in greater volume in anticipation of the coal strike last spring. Passenger revenues totaled \$4,104,741, a decrease of \$161,247, or 3.78 per cent. The number of passengers carried showed an increase of 42,336, or 1.12 per cent. Expenditures for maintenance of way and structures during the year were \$1,894,536, an increase of \$154,619, or 8.39 per cent. Expenditures for maintenance of equipment were \$2,696,132, an increase of \$299,031, or 12.48 per cent. Conducting transportation expenses were \$5,428,690, an increase of \$19,235, or 0.36 per cent. The report says: "The taxes for the calendar year, 1911, show an increase, as compared with 1910, and we feel that the taxes against your company are excessive. At the present time study is being made of the subject with a view to not only effecting proper reduction, but also with the view of pointing out the great necessity for proper and uniform taxation laws covering railroads. The total amount paid in taxes account for the calendar year, 1911, was \$471,895, an increase over the previous year of \$21,967, or 4.88 per cent. Since 1905 there has been an increase of \$94,466, or 25 per cent in the yearly tax paid."

Lucky to Reach the Tree. Owing to a sudden flooding of the valley of Klein-Dietwil, Switzerland, three peasants engaged in hay-making were forced to take refuge in a tree, where they remained forty-eight hours. Pontoons were launched as soon as the men were missed, but the rush of water was so great that it was impossible for a time to reach them.

Never Too Late to Learn. In his seventy-fifth year Mr. J. H. Robinson, a retired cotton worker of Preston, Lancashire, England, has passed in elementary French at evening classes. He took up the study on his retirement 18 months ago and has never missed a class or been late since. His home work was highly commended.

Barred From Popularity. "We want a man for leader who knows all about the tariff, the currency and the methods of railways and corporations." "No, we don't," replied the practical campaigner. "A man who learned all that would never have time to go around shaking hands or relating humorous anecdotes."

Is Anxious to Meet Him. The vicar of a Kew (England) church is advertising for the person who has been in the habit of placing in the offertory bag an envelope containing a dirty and somewhat greasy halfpenny stamp, so that he may be able "to exchange the stamps for current coin of the realm, and have the opportunity of making the acquaintance of a most interesting parishioner."

For Afternoon Tea. A loaf of cube sugar rubbed over the surface of an orange will retain the orange flavor by absorbing the oil. Sugar thus prepared and used in tea imparts to the latter a most delicious flavor, suggesting orange pekoe.

Meaning Money. "Now, my son, I am giving you all the chance in the world to take a liberal education." "Right, dad, and I'll take it just as fast as you can afford to send it on."

Where There Is Rest. She—"Do you get a rest every summer, Mr. Jones?" He—"Oh, yes. You see, I'm only in business; I'm not in society."
