Aluminum Cooking Utensils

WEAR-EVER ALUMINUM COOKING UTENSILS speak for themselves and prove their worth—if given a fair trial.

They are stamped from thick hard sheet aluminum, and are made without seam or solder. They cannot rust, do not contain and cannot form with fruit or vegetable acids any poisonous compound—food may stand in a WEAR-EVER utensil without injury the same as in a glass or china dish. They are solid metal, uninjured by sudden changes in temperature. They cannot crack or scale. They are practically indestructible.

Come in and look them over.

Lars Larsen & Son

W. J. HILDY

Teacher of Piano, Harmony and Composition

Will be in Dwight Friday and Saturday of each week. Mr. Hildy has a very large class of pupils here now and will be glad to talk to anyone musically interested.
