CHRISTMAS MORNING

Give Your Wife a Hoosier Cabinet-- Save Miles of Steps For Her Tired Feet

Do you know how many miles of steps your wife takes in her kitchen? Her table is the center of her kitchen work. To that she must bring everything and then carry it all away. You can see her now as she works around her kitchen—never still—never stopping—always moving until you are impelled to say to her—

“Don't You Ever Stop”

A woman never stops—she can't—there's too much to do. The time she might spend in resting she puts in walking back and forth in an inconvenient kitchen, getting things together that ought to be all in one place. You can save her countless steps by giving her a Hoosier Cabinet. It combines pantry and cupboard around a big table covered with pure aluminum, and puts everything at her fingers' ends. The half million women who own Hoosier Cabinets don't WALK for things. They REACH for them, and save hours every day.

Labor-Saving Machine

In your own work you have scores of labor-saving devices. Your wife practically has none in her kitchen where her hardest work is done. The Hoosier Cabinet is the first real kitchen labor-saving machine. Men by thousands have seen its merit and are buying it for their wives this Christmas to cut their kitchen work in two.

Designed by Women

This Hoosier Cabinet has been developed year by year from the suggestions of housekeepers. It is compact and wonderfully convenient—built of solid oak to last a lifetime—beautifully finished—handsome enough to grace the finest kitchen in the land.

Every woman who owns a Hoosier Cabinet urges her friends to have one. Enormous sales have cut manufacturing costs in two. To give you the benefit, we fix the price. Thus, you get the best built kitchen cabinet on earth at much less than you would have to pay if it were made in small quantities.
