

To Our Friends and Neighbors

You know us. You know we would not—that we could not afford to—go back on our word. Nor can you afford to ignore this money-back-if-not-satisfied offer on this splendid laxative.

We honestly believe we have the best bowel remedy ever made—the most pleasant-to-take, most permanently beneficial laxative for relief from the miseries and dangers arising from constipation.

We wouldn't say this if we didn't believe it to be true. We wouldn't risk our reputation by making such statements did we not feel sure you would find them true.

Our faith is built both on the knowledge of what Rexall Orderlies are made of and on observation of very many severe cases in which they have proven their merit.

Try them at Our Risk

If they do not abundantly prove their merit with you also—if you are not entirely satisfied with them—we will refund your money—and we will do that on your more say-so. We don't ask you to risk a penny. Isn't that fair?

Just let the bowels fail in properly doing their work—just let their action be delayed and incomplete and the entire system and every other organ suffers. Wastes that

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all drug stores. You can buy Rexall Orderlies only at The Rexall Stores. You can buy Rexall Orderlies in this community only at our store!

should have been dispelled remain to poison the system. Headaches, biliousness, nervousness and other tormenting and serious ills are common when the bowels fail to act daily as nature intended. All this may be avoided, if you will accept our advice.

Rexall Orderlies

taste just like candy. They are soothing and easy in action. They do not cause griping, nausea, purging or excessive looseness. They tend to tone and strengthen intestinal nerves and muscles. They promptly relieve constipation, and help to permanently overcome it.

Rexall Orderlies promote better spirits and better health. In all of these things they are vastly superior to old-fashioned, harsh salts and other purgatives, which are not only unpleasant to take but which usually leave the bowels in worse condition than before. We particularly recommend Rexall Orderlies for children, aged and delicate persons.

Rexall Orderlies come in vest-pocket tin boxes. 12 tablets, 10c; 36 tablets, 25c; 80 tablets, 50c.

Do you know that a barber makes more money than most any other tradesman? Comparatively few are taking this up, so the field is not crowded, but what trade is better. The Moler Barber College at 738 So. Wabash Ave., Chicago, Ill., informs us they issue a free booklet showing their method of teaching this work now in a few weeks where it formerly took years. Anyone out of work should investigate.

INSTITUTE A BIG SUCCESS.

Meeting Held in Dwight by Farmers Was Well Attended.

The annual session of the Dwight farmers institute opened last Thursday morning at the Opera house with an excellent attendance. Besides the farmers and their wives being present, there was also a generous sprinkling of business men, professional men and citizens who have already won their spurs as successful farmers and retired to make their homes in town.

The meeting was presided over by M. W. Tambling, president of the organization, and John J. Doherty as secretary.

During the morning session one of the enjoyable features was a reading very cleverly given by Mrs. Gertrude Clark, of Chicago, who needs no introduction or words of praise in this line of work as she has been heard by many in this vicinity before and has always been given a hearty reception.

Following the reading by Mrs. Clark a very interesting and instructive address on "Forage Crops" was delivered by L. S. Griffith, of Woodhull, which closed the morning session.

The afternoon session was opened with another reading by Mrs. Clark which was heartily applauded.

The principal speaker of the afternoon was Mr. Frank I. Mann, of Gilman, who spoke on "Soil Building." Mr. Mann has attained the reputation of being the most up-to-date corn farmer in Central Illinois and is interesting, not because he tells things in an interesting manner, but because he has tried out all methods by actual experience on his own farm, and tells things just as they happened with him. After making a lengthy speech he invited any one in the audience to ask questions and they came in rapid succession, he answering them all. The farmers present gained considerable knowledge on the raising of different crops. Following the talk by Mr. Mann the meeting adjourned until Friday.

Friday morning the election of officers took place. The following were elected, who will have charge of the Institute which meets here next year: M. W. Tambling, President, A. B. Terwilliger and E. Radcliff, Vice Presidents, John J. Doherty, Secretary and Treasurer.

Mrs. Clark then gave another reading, which was listened attentively to by the large audience who appreciated her appearance on the stage during the different sessions.

Rev. Euclid B. Rogers, pastor of the First Baptist church, of Springfield, was then introduced and spoke on "America's Biggest Job." This address was perhaps one of the best made during the entire session of the Institute and related to the caring and rights of children. Although the audience during this address was not very large it was highly appreciated by those who were there and those who were not there certainly missed a splendid talk.

Friday afternoon the program was opened with a reading by Mrs. Gertrude Clark, which was followed by a Stereopticon address on Good Roads, by A. N. Johnson. This address was interesting as well as instructive, as Mr. Johnson explained the value that hard roads and concrete bridges are to the farmers, and showed a number of stereopticon views of same, which are located in different parts of the state. He also told the cost of constructing the hard roads per mile, and at the close of his address answered a number of questions which he had invited any one in the audience to ask.

The Institute this year has been a great success in every respect and the officers should be congratulated on the splendid program that they furnished.

One of the things attempted this year was to organize the institute on a financial basis independent of the merchants, by asking every farmer to contribute for the expense of next year's meeting. More than sixty men have already subscribed to this and a canvass is to be made which is expected to include about 100 in all.

The awarding of the prizes on grain at the institute were made Thursday morning, Henry Beyer, a farmer of this vicinity, capturing more prizes than any one. The following awards were made:

Yellow Corn, ten ear exhibit—First, Henry Beyer, second, H. A. Wood, third, John Telford; White Corn—First, Henry Beyer, second, Harry Hansen, third, George Hahn; Oats—First, Frank Lower, second, Henry Beyer, third, George Hahn.

Personality Demanded. Beauty may win an ephemeral success for a musical comedy actress, but unless it is allied with personality that success is not likely to last very long.—London Answers.

HUMAN BURRS IN THE WORLD

Unwise People Who Bore Their Friends With Their Display of Lack of Tact.

Do you ever encounter inquisitive people who are really annoying—people who have not the least interest in your affairs, but simply "want to know" out of idle curiosity? A great share of America's reputation for rudeness may be laid entirely to the charge of their illing questions. Equally undesirable is the person who confides her family troubles to all her friends. Instead of putting the stoutest kind of padlock on the closet door where the family skeleton lurks, some women shamelessly drag it out and parade in the public eye.

The too-friendly individual who runs in at all hours without ringing and offers her services upon every occasion, and the woman who monopolizes or tries to monopolize all the time and attention of her friends is likewise to be avoided. "Dearie, if you are thinking of going shopping this week, let me know and I'll go with you. Stop for me if you go to the matinee on Wednesday."

It never occurs to them that their company might not be appreciated. But just as the burrs of the field make us appreciate the flowers more than ever, so do the human burr teach us to rejoice in the pleasant, considerate, sensible friends that fall to one's lot for the latter outnumber the former many, many times.—Exchange.

Live Each Day. Foresight is very wise, but foresorrow very foolish, and castles are, at any rate, better than dungeons in the air.—Sir John Lubbock.
