Electric Motor Drive will make your shop more profitable

It will increase the earnings because each tool is supplied with just the power to make its output the maximum. The motor gets the most out of every tool it drives.

It will decrease the expense because the power costs just in proportion to the work the motor does. When the work stops the expense stops.

For Hair Health
If Resall "93" Hair Tonic does not improve the health of your scalp and hair, we will pay for what you use during the trial.
We could not so strongly endorse Resall "93" Hair Tonic and continue to sell it to the same people if it did not do all we claim. Should it not prove entirely satisfactory our customers would lose faith in us, we would lose their patronage, and our business would suffer.

We want you to make us prove this. We ask you to risk no money whatever. Buy a bottle of Resall "93" Hair Tonic, use it according to directions for thirty days; then if you are not entirely satisfied, come and tell us and we will promptly hand back the money you paid us for it.

the high school and another by the grades. The other two are not fully planned as yet.

The pictures which will be exhibited will not be for sale, but it will be possible, through the school, to purchase exact duplicates, and money raised through public sales of this character will also go toward the fund for purchasing pictures for the public schools. Large illustrated catalogs will be for sale at the exhibition, describing the different pictures exhibited and giving brief sketches of the artists.

It is now generally recognized among educational authorities that education in culture and refinement can easily be aided through the wholesome influence of pictures of the right sort on the school walls. The larger the attendance at the exhibition, the greater

er the number of pictures that can be secured for the schools.

This collection of carbons and photogravures is made directly from the original masterpieces, and is selected by art experts.

One of our leading art critics, John C. Van Dyke, says: "You must look at pictures studiously, earnestly and honestly. It will take years before you can come to a full appreciation of it, but when at last you have, you will be possessed of one of the purest, loftiest and most ennobling pleasures that the world can offer you."

These pictures are of interest to all, both old and young, and they are expected to attract and instruct large numbers of people.
