Getting Ready for the Olds

IT'S coming! The time is coming when you'll just have to have an engine to help you do your work; grind your feed, shell your corn, pump your water, run your cream separator and a lot of other machinery around your farm.

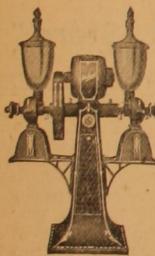

Better begin to think about it—better come here and look at the Olds Engines we've got. No matter how many others you see, or read about or hear about, an Olds Engine will do your work better, with less trouble and will do it longer than any other engine made.

Whether you want an engine or not, this store is here for you to make it your store.

If you can't find time to come and see us, ask us to come and see you or send you a free catalog of Olds Engines.

We're here to serve you;
give us the chance.
