

## He Banked his money and became a partner in the Business

Our successful business men began by saving the first money they earned so that when a business chance arose they were in a position to grasp it. Many senior members of great firms became junior members of that same firm by having MONEY SAVED with which to buy the first interest they had in the business. Start a bank account and see how happy you will be to see it grow; it will be the best friend you have, and the BEST PARTNER.

## The New Hired Man

**THIS** kind of hired man comes crated and carefully packed, but as soon as you get him set up and ready for work he doesn't care what time he starts or what time he quits; dinner bells have no charms for him; he does not eat if he does not work.

His name is Olds Engine; he'll do more hard work for you in a day than any man you ever heard of. You need this hired man on your farm; let us tell you about him.

If you can't find time to come and see us, ask us to come and see you or send you a free catalog of Olds Engines.

**We're here to serve you; give us the chance.**
