

Must You Be Bald?

What have you done to stop your hair from falling? Have you tried Rexall "93" Hair Tonic? If not, we want you to try it at our risk.

If you have dandruff, if your hair is falling out and your scalp is not clean and shiny, if you use Rexall "93" Hair Tonic according to directions for thirty days, and at the end of that time you are not thoroughly satisfied with the results and will tell us so, we will immediately hand back your money. We won't ask you to promise anything. We won't even question you. We will take your mere word and return your money.

Doesn't it stand to reason that Rexall "93" Hair Tonic must be a mighty good remedy and have given great satisfaction to our customers if we endorse it like this? We know of no similar remedy that is as good. It is because of what Rexall "93" Hair Tonic has done for others that we back it with our own money.

Why suffer scalp and hair trouble or be bald, when Rexall "93" Hair Tonic will remove dandruff, make your scalp comfortable and healthy, promote hair growth and tend to prevent baldness—when we will pay for the treatment should it fail to please you?

We don't oblige you to anything. You simply buy the treatment, use it, and if not pleased, come back to us empty-handed—and we will hand back what you paid us. Two sizes, 50c and \$1.00 a bottle. You can buy Rexall "93" Hair Tonic in this community only at our store:

SCHOOL NEWS

Edith Deutsch has been absent this week on account of sickness.

The fifth grade is committing some of the "King Arthur Stories."

The programs for the picture exhibits appear elsewhere in this paper.

The attendance in the second room has been unusually good the past month.

The sixth grade pupils have written stories about "A February Snowstorm" this week.

The story "Pied Piper of Hamelin" is illustrated on the sand table in the second room.

Mary Gregory, Veldon Pearson and Louise Steger have been promoted to the A class.

All of the first grade children except two have done excellent work in numbers this week.

Donald Nelson had the highest average in the sixth, the past month. His average was 99 per cent.

The sixth grade class in history is studying the story of "Meriwether Lewis and William Clark."

The A and B classes in the fifth have a contest to see which can have the most hundreds in the month.

Esther Ebert has been absent the past week, from the seventh grade, on account of the illness of her mother.

The first grade children modeled Little Boy Blues out of clay this week. Some of them were exceptionally good.

Five children entered the first grade this week. They are adapting themselves to school and learning exceptionally well.

Mary Chapple and Milly Anderson entered the fourth grade this week, and Frank Horn, Milton and Mervin Murphy and Harry Uerkwitz left.

For language work the third grade children wrote letters in reply to one received from Mrs. Chase, who was their teacher the early part of the year.

The second grade has been doing some excellent work in their construction period. The quarter inch is being used very accurately for such small children.

The following pupils made 100 or 95 in the arithmetic examination of the seventh grade: Bessie Drew, Vera Barnum, Esther Burger, Frances Eyer, Louise Wright, Wm. Kepplinger, Edward McDonnell, Grace Lower, Helga Skafgaard, Esther Ebert, Dalton Kelgler, Harold Christiansen, Philip Tock, Wm. Hood, Soren Christiansen.

The east side had no school on Friday. The board gave the day to the teachers, for the purpose of visiting the schools. Miss Rosendall visited Oak Park, Miss Edborg visited Bloomington, Misses Humbert and Janssen, Peoria, Miss O'Malley, Pontiac, Miss Fisk and Miss Brown at Joliet, Miss Perry, Normal, Mr. West, Streator, Miss Scott, Jacksonville and Mr. Roosa, Springfield.

One on Solomon. Perry—Solomon himself admitted that he was puzzled by "the way of a man with a maid." Mrs. Perry—Well, he'd have been more excited over the way of a maid with a new set of dishes.—Judge.

Letter From Canada. Manna, Sask., Mar. 1, 1913. Dwight Star and Herald, Dwight, Ill. Enclosed find a money order to pay for another subscription for the coming year. Had fine crops the past year and have had an ideal winter, barely any snow, and not very cold. All are well here. There is quite a settlement of Illinois suckers here all together, so it seems more like our own people. —Yours truly, Arthur Wright.

Too Much. "I understand your star has a great deal of temperance." "A great deal! Great Scott, man, you can't put a thermometer near her without its dancing ragtime between boiling point to zero."—Exchange.

Time to Call a Maid. "When our sense of humor becomes so acute that it sees through our own illusions as well as other people's," says the Philosopher of Folly, "it is time to put blinders on it."

Intoxication. He who is drunk in a carriage has had a fit; he who is drunk in a trolley car is drunk.

Winning the Greatest Things. It is flattering to our lower natures to be envied. But for the esteem that is worth having, one kindly action, one tender, considerate word, will do more than the fullest measure of glittering success. Hustling, pushing, grabbing, will win many rewards according to their desert; the nature of the reward meets the nature of the effort. But they will not win affection, they will not win tenderness and love. —Exchange.

Order This Wonderful Electric Vacuum Cleaner Today

WE OFFER YOU THE LATEST IMPROVED ELECTRIC VACUUM CLEANER ON THE MARKET

The Richardson-Eureka Electric Vacuum Cleaner

If you want an efficient and thorough Vacuum Cleaner—one that is light in weight, easy to operate, strongly constructed yet low in price—be sure to give the RICHARDSON-EUREKA VACUUM CLEANER a thorough test. You will find this machine is built on scientific principles throughout having been perfected after years of experiments and tests.

A FEW FACTS THAT MAKE THE RICHARDSON-EUREKA THE BEST ELECTRIC VACUUM CLEANER ON THE MARKET:

The most important feature is our perfected universal type motor that will run on either direct or alternating currents. It is placed in a horizontal position which insures an even distribution of oil, lengthening the life of the bearings, and greatly increasing the efficiency of the motor at all times.

Next in importance is our indestructible Fan, made of steel which is rigidly fastened to the shaft with a patented moon-shaped key, and a square, slotted head, machine screw.

The area of our intake nozzle is much larger than that used by pump type machines, 8 1/2 inches long and 3/4-inch wide and has a decided advantage over all types and cleaners using a hose. As an illustration, the area of a 1 inch hose is .7854; the area of our cleaner nozzle, which is connected directly to our fan, is 5.9396 giving it about six times greater capacity.

The long neck of our bag is placed at the outlet side, which allows the dirt to settle at the bottom and remain quiet. The clamping device is located at the bottom of the bag where the dirt settles, making it very easy to empty.

It has a far greater cleaning power than any portable machine made.

It is so easily operated that cleaning is made a pleasure. Anyone can operate it—no mechanical knowledge is necessary. It cleans itself, oils itself, and its good work speaks for itself.

Absolutely the best materials obtainable are used in the construction of this machine from beginning to end.

Every part is made in one factory—this is not an assembled machine.

You take no risk, because OUR GUARANTEE

for one year against defective material and faulty workmanship is the most liberal ever offered.

Let us send this machine on trial

PROOF

Just recently the largest manufacturers of Vacuum Cleaners in England have discontinued manufacturing their product, and adopted this American made machine, which is unquestionable evidence of the superiority of our Eureka.

MORE PROOF

The British Government, the White Star Fleet, the Cunard Steamship Company and many other large, well known corporations chose this machine to do their work.
