

*It was built  
little at a time;  
so are great  
Fortunes*

The Pyramids of Egypt, that were built many centuries ago, are still standing. The whole world looks at them with inquisitive admiration. Storms and time have not destroyed their magnitude nor their symmetry. But they were built, one stone at a time. If the FIRST STONE had not been properly placed, the Pyramids would not be there today. A fortune can be built, little by little, but not until after it is STARTED. If you want a fortune, START ONE NOW.
