The tips' outwear the gloves

"The Kayser" SILK Glove

is the World's standard silk glove—all other silk gloves are measured by the "KAYSER" standard. The development of the "KAYSER" Silk Glove represents the attainment of an ideal, the achievement of which has not been hampered by restrictions of cost or time, nor influenced by a passing demand for features most aptly characterized as "talking points."

We could not afford to buy expensive advertising space "year after year" to tell the women of America that "KAYSER" Gloves are the best—in style, fit and finish—if it were not true.

"KAYSER" gloves "cost no more" than the ordinary kind—and are worth double in quality, fit and value.

Don't accept the "just as good" kind, there's a way to tell the genuine—"Look in the Hem"—if you find the name "KAYSER"—you have the kind that "don't wear out" at the finger ends.

A Guarantee ticket in every pair.

Short Silk Gloves, 50c, 75c, \$1.00, \$1.25, \$1.50
Long Silk Gloves, 75c, \$1.00, \$1.25, \$1.50, \$2.00

Build a Rat Proof Corn Crib

Rats cost the nation \$35,000,000 per year. Much of this loss is at the expense of the farmers' corn. Concrete construction is the perfect cure.

The owner and one man built the corn crib pictured at the left, using

Chicago AA Portland Cement

Farmers the country over prefer the "Chicago AA" brand for their concrete work. They have found it always the same grade—always uniform—always results in satisfaction. Stop in for a

Free Booklet telling how to build a corn crib. Or if you prefer, write Chicago Portland Cement Co., 30 N. La Salle Street, Chicago, for a copy.
