MEMORIAL SERVICES.

Union Church Services at M. E. Church Sunday, May 25.--Decoration Day Services at West Park, Friday, May 30th, at 2 P. M.

The arrangements for Memorial Sunday and Memorial Day are fast being completed and instead of both services being held on one day, as for several years past, it has been decided to have Sunday services on May 25th, the Sunday preceding Memorial Day, and Decoration Day services on Friday, May 30th.

The Sunday services will be held at the M. E. Church and the sermon will be delivered by Rev. H. F. Ebert. This is a union service.

The services for Decoration Day will be held in West Park, weather permitting, and will begin promptly at 2:00 o'clock. The address will be delivered by Rev. Geo. H. McClung.

For Sunday services the different organizations will meet at the Opera House hall at 10 a. m. and march to the M. E. Church to attend union services at 10:45 a. m. All members of the societies are expected to attend this service and all eligibles of either society are invited to join them.

The decoration of the graves will be done early Friday morning by committees from the Grand Army and the Sons of Veterans. The Sons of Veterans Auxiliary request all who can spare flowers to send them to the Star and Herald office Thursday afternoon, May 29th, and they especially ask the school children to assist in this noble work. The flowers will be made into bouquets and used to decorate the graves of the veterans in all of the cemeteries.

In the afternoon the school children will march, headed by the Dwight Band and the Sons of Veterans, from the East Side School to the Opera House hall, where the Grand Army and the Sons of Veterans Auxiliary will join them, and thence to West Park, where the program will be rendered.

After the exercises at the park all automobile owners are requested to donate the use of their machines to take the veterans and their families to the cemeteries to view the decorations. This will take about an hour and a half. All automobile owners who will do this are requested to leave word at the Star and Herald office.

Everyone is invited to attend these services. All eligibles are invited to attend these exercises with the societies.

It is expected that all the stores will close at noon for the day as usual.

A resolution was passed at the last National Encampment of the G. A. R., at Los Angeles, requesting that the bells of all churches throughout the country be tolled for five minutes from 12:00 noon to 12:05 p. m. on Decoration Day, in honor of the soldier dead.

Notice to Correspondents and Advertisers For Next Week

This paper will be printed on Thursday afternoon instead of Friday, as usual, on account of Decoration Day, May 30th, coming on Friday. This office will be closed all day on that date. It will be necessary for all copy to reach us one day earlier next week. Correspondents and advertisers will please bear this in mind.

DUSTIN & HOLBROOK.

Down With the Dust!

There has been much discussion in the past in regard to the dust on Mazon avenue and other streets, which all agree is a nuisance if not actually a menace to the health of those who are obliged to submit to it. There is now a movement on foot to oil West Mazon avenue and also West Waupansie street with standard asphalt road oil such as is now being used in many cities and towns all over the state and elsewhere. The same plan will be tried in Dwight also as to the means of raising the necessary money to pay for the oil. It is proposed that each resident along the streets to be oiled pay at the rate of six cents per front foot which will just about pay for the oil and the Village is to apply the oil.

The city of Rockford has been using oil on their streets for several years past and now practically every street in Rockford is oiled. The same is true in many of our neighboring towns, for instance, Wilmington, Forrest, Chatsworth, Fairbury, Earlville and other towns.

All of the objections to road oil have been overcome. The oil is applied while hot and therefore quickly takes a firm hold as a binder. The oil will not track off the streets to any appreciable extent after being down a few days.

It is actually a saving of money on an improved street as anyone who ever notices an automobile going down the street with a great cloud of dust behind it must realize that this is part of the street blowing away, and this operation being repeated every five minutes soon wears the street to a very appreciable extent.

The method proposed is cheaper than sprinkling with water and is vastly more effective. It is hoped that every one along the streets selected will willingly contribute the six cents per foot as it is a foregone conclusion that once the oil is applied its value will be immediately demonstrated.

The Spencer Factory.

A meeting of those interested in the above proposition was held at the rooms of the Commercial Club Thursday afternoon and was well attended. After some preliminary discussion a motion was made that the capital stock be placed at $125,000 and that a committee of five be appointed by the chairman of the meeting as incorporators. This was done and an application for charter has already been made by this committee. An advertisement will be found elsewhere in this paper announcing the opening of books for subscription and it is hoped that everybody will subscribe generously.

Saunemin Struck by Cyclone.

A cyclone swept the village of Saunemin at 6:45 o'clock Tuesday evening and did damage amounting to several thousand dollars. The twister came from the southwest and its wake was marked with wreckage and destruction. Houses were unroofed, trees uprooted, barns and outbuildings destroyed, but fortunately no loss of life or injury to persons have been reported.

Fully one hundred trees in the village were either overturned or hopelessly mutilated by the storm. Two large plate glass windows in the Masonic building were crushed in. The front of the Huber restaurant building next door to the Masonic building was blown in and the roof torn off and much damage done to the interior. Wooden awnings were torn from the fronts of buildings on the main street, chimneys were demolished and roofs blown from many private residences.

At the lumber yards the lumber sheds were unroofed and piles of lumber were picked up and scattered over a large area. Heavy timbers were blown about like straw and a quantity of the lumber was strewn over the railroad tracks, necessitating several hours of labor before the tracks could be cleared for traffic.

The streets about the village next morning were filled with the wreckage of the storm ,in many places being choked to impassibility with broken and twisted trees.

Plate Glass Window of W. D. Roeder's Jewelry Store Broken.

Last Saturday morning between the hours of 11 and 12 someone mysteriously threw a large rock through one of the plate glass windows of W. D. Roeder's jewelry store, and up to the present time the guilty party has not been found. The only thing known is that a number of boys were at the depot throwing rocks at a target and it may have been possible that one of these hit the pavement and bounded up and broke the window. This practice may be fun for the boys, but is dangerous as the rock that broke the window was a large one and if it had struck someone while passing on the street it would probably have injured them severely. The loss to Mr. Roeder is no small amount and the party who is guilty of breaking the window should own up to it and help pay for the damage done.

Conductor Flomerfelt of the Dwight branch passenger runs is again laying off due to the death of a relative and Harry Lewis of the Lincoln mine run is taking his place.

THE MONTH OF JUNE

Calls for graduation and wedding gifts

For those who are inclined to make gifts for either occasion we have many articles, unique in character and of pronounced individuality.

Sterling silver ware, leather card cases, bill books and picture frames, ivory toilet articles, umbrellas, jewel boxes, etc., and a beautiful display of rich cut glass.

EVERETT B. LEWIS
Jeweler and Silversmith

PRICE $3.00 TO $9.50

This Blade with the Double Edge makes Two Lawn Mowers in One

Coldwell "Imperial" Lawn Mowers

are all fitted with this unique feature. The double-edged blade is made of channelled crucible steel. Both edges are keen and sharp and more than double the life of the mower.

A mower with a blade like that is worth an investigation. Its price wont make deep inroads on your pocketbook—a saving is absolutely assured.

We personally recommend an "IMPERIAL" for our use.
