You will find everything you need in building material at our yard, prices moderate, service the best.

We are living up to the reputation of all other yards where stocks of Arkansas Soft Pine lumber are carried.

This is quality lumber; our other stocks are quality goods.

In selecting our principal lumber supply Arkansas Soft Pine was chosen because of our desire to be favored with your continued patronage and that kind of lumber will bring you back for more of the same.

## GIVE YOURSELF THIS PRESENT

If someone offered to give you a new Bluebell separator you would jump at the chance. Make yourself a present of one. It will not really cost you anything, for this separator pays for itself by saving you time and work, and by actually increasing your dairy profits. Come in and see one of these machines set up. It is so simple you cannot help understanding it; so perfect you cannot help liking it. The skimming device on the Bluebell loses no butter fat in separation. The spiral cut gears, made of semi-steel, the phosphor bronze bushings at every wearing part, the trouble-proof, self-adjustable bowl spindle neck bearing, all insure long-lived, efficient machines. Come in and make a personal examination.

We have I H C Bluebell Cream Separators in these sizes:

- No. 1. 350 lbs. capacity per hour
- No. 2. 450 lbs. capacity per hour
- No. 3. 650 lbs. capacity per hour
- No. 4. 850 lbs. capacity per hour

CHRISTOPHER BROS, Agents

The heavy rainfall in this section of the country Sunday and Monday kept the farmers from the fields for several days. They are now satisfied that they have enough rain for some time. The oat fields are looking good and in some places corn is up but a number of the fields were flooded and the probabilities are that the corn will have to be replanted.
