

WAKE UP! Bank your Money

Are you going to grow old without a dollar in the BANK?

Winding up in the POOR HOUSE is not a pleasant prospect. Old age comes as sure as the clock ticks. A comfortable OLD AGE is the ambition of every man. The way to have this is to have MONEY to make it comfortable. The money that you could save now by cutting out a few extravagances would grow into a big sum by the time your life reached its December. While enjoying the May time of your life, prepare for the December.

SANITARY PLUMBING and HEATING

The fact that a man can put a thread on a piece of pipe and couple it up with a wrench does not make that man a SANITARY PLUMBER, any more than the fact that a man can write with a pen makes him an expert bookkeeper. It takes years of study to become a SANITARY PLUMBER.

It is about time that the people of Dwight realized the meaning of "Sanitary Plumbing" and Heating.

I am an acknowledged expert in my line and this is what you want to consider when giving out your work this coming season.

The cheap job by inexperienced workmen means that in a year or two the cost of that job will be double the cost of a first class job installed by a first class man who knows what real Sanitary Plumbing and Heating is.

I stand back of every job of plumbing and heating I install, and I have the knowledge to install each job in a sanitary manner. I am no stranger in the town; my work here for the last 10 years speaks for itself.

The cost of my work is always at the lowest figure for good work. My motto is "Low Cost, High Quality."

I am also a State Licensed Plumber.

1913 Indian

Absolute Comfort for the Motorcyclist

The Indian Motorcycle for 1913 includes, in addition to the Cradle Spring Frame, ten important new features. There are besides no less than twenty-nine new minor features. We call these "refinements"—not improvements.

Another important comfort feature of the 1913 Indian is the equipment of footboards in addition to pedals. The latter are in reality fitted only for the purpose of starting the motor, similar to cranking an automobile. Once started, the rider has the choice of two comfortable riding positions with the double brake action and absolute control assured in each instance.

The Simplest CREAM SEPARATOR Ever Built — DE LAVAL

EXCELS ALL OTHERS not only in thoroughness of separation, sanitary cleanliness, ease of running and durability, but as well in its great simplicity.
 THERE IS NOTHING ABOUT THE OPERATION, CLEANING, adjustment or repair of a modern De Laval Cream Separator which requires expert knowledge or special tools.
 NOR ARE THERE ANY PARTS WHICH REQUIRE FREQUENT adjustment in order to maintain good running or to conform to varying conditions in the every-day use of a cream separator.

Combination Wrench, furnished with each De Laval machine, which is the only tool required in setting up, taking down or using the De Laval, the simplest cream separator ever built.

THERE IS NOTHING ABOUT THE MACHINE THAT CANNOT be taken apart, removed or replaced by any one who can use a wrench or screw driver. In fact, the only tool which is needed in the use or the operation of a De Laval Cream Separator is the combination wrench and screw driver illustrated above, which is furnished free with every machine. Drop in some day soon and let us show you an up-to-date De Laval. You can see for yourself that it is built to give the best service.

LARSEN & SON, Dwight
