Making Two Ears of Corn Grow Where Only One Grew Before

Not getting the right amount of rain at the right time, is one of the principal causes of crop failure.

This is past history, however, on thousands of profitable farms throughout the country. These farms use Electric Power, and motor driven pumps allow irrigation in the right amount and at the right time.

There are suitable G-E Motors for running the machines in the Barn, in the Dairy, and in the Field. Almost every task and chore on a farm can be done more rapidly, more economically and more safely with Electric Power, than in any other way.

Our Power is at your command at any time, day or night, throughout the year.

Even if Rockefeller can Raise \$10,000,000 on his check any minute, he isn't the financier that the fellow is who raises a family on \$9.00 a week.

But no matter whether you earn \$9.00 or \$50.00 you'll find several reasons why you'll be best satisfied if you get your clothes of Carey & Seabert.

The man who doesn't have to care about the cost of his clothes can get perfect satisfaction at many stores, but the fellow who wants to spend his money carefully had better come here. He will get that "something" in his clothes that makes for a better personal appearance and at a price he can easily afford.

Honestly, we don't believe there is a store anywhere where you can get so much style-value, wear-value and satisfaction-value at ordinary prices.

But don't take our word for it—ask some of your friends. Better still—come and see for yourself.
