

COUPONS OR CASH

Frankly we do not like the coupon idea of doing business. To our minds it savors too much of the old time lottery where many must lose that a few may gain and as it has always been the policy of the live store to share its benefits with every one of its patrons, we cannot in justice to them and ourselves sanction such practices.

We have always given to every man a greater degree of value for every penny spent with us than it has been possible for anyone else to duplicate and we will continue to do so as long as this business is under our supervision.

If discounts must be given to win your trade then we will give them without reservation and under the following plan:

10 Per Cent Cash Discount

on every dollar spent in our clothing department.

That means that on a \$25.00 Kuppenheimer Suit or Overcoat we hand you back \$2.50 CASH. On a \$20.00 garment \$2.00 CASH and so on throughout the entire line.

The original plainly marked price tickets remain. There has not and positively will be no juggling of figures in connection with this remarkably open, above board plan.

And in every other department we will follow the same idea giving an actual dollars and cents CASH discount of

5 Per Cent on Every Purchase

This is our answer to coupon methods and the sacrifice of a large share of our profits is gladly made in the knowledge that the high ideals of this store are being fully lived up to.

CLOSING-OUT SALE BRASS AND IRON BEDS

⚡ \$2,500.00 worth of brass and iron beds, all in first-class condition and valued at from \$11.75 to \$78.00 each, to sell at from 20 to 25 per cent discount.

⚡ Figure it out for yourself and see how much you save.

"Let me see some of your black kid gloves," said a lady to a shop assistant. "These are not the latest style, are they?" she asked, when the gloves were produced. "Yes, madam," replied the shopman, "we have had them in stock only two days." "I didn't think they were, because the fashion paper says black kinds have tan stitches and vice versa. I see the tan stitches but not the vice versa." The shopman explained that vice versa was French for seven buttons, so she bought three pairs.

Proud of the Fact.

Two different lady customers have called at our store and informed us that they were users of Hoosier Kitchen Cabinets but their names were not on the long roll in our window. We were aware the list was by no means complete and is not yet, but can be added to any time and we would like to hear from any users of Hoosiers whose names have been omitted. We will put it on at once. C. M. Baker & Son.—Adv.
