

"There is that maketh himself rich,
getteth nothing; there is that him-
self poor, getteth great riches."

THERE is a stronger bond of love and friendship today than ever in the world's history.

It is evidenced in many ways—a better standard of home life; bigger and better purposes in the individual, and a higher plane of commercial activity.

In success and growth confidence is essential. Confidence comes from nobility of service and honesty of purpose.

OUR bank has grown for the reason that we have made our interests the interests of our community—its business, its homes, its people.

The confidence we have enjoyed in return has rebounded to our credit and has given us greater incentive for greater service.

This bank is worthy of your fullest confidence. Make it your bank.

THE pure food laws are a blessing in many ways, but they don't go far enough.

Unless your grocer is keenly alert and insistent upon quality and freshness, he may be as badly fooled now as before the enactment of the laws.

Our Pure Food Law:

We don't depend wholly upon the law. We make our own demands for purity, and we see to it that they are complied with. You'll never set a poor table when you get your supplies from us. Our goods are fine, and what is important, absolutely fresh.

We aim to do right by all—in service, quality and price
