## TWENTY YEARS AGO IN DECEMBER

(From the Dwight Star and Herald.)  
Annual Sunday School Convention held in M. E. Church. L. A. Naffziger, Miss Cora Adams, Mrs. E. T. Miller, Mrs. V. S. Wright, Miss Ella Conant, D. B. Stevens, Prof. C. W. Ayling, Rev. E. F. Wright, Prof. J. M. Meneely and Col. R. P. Morgan took part. Rev. E. F. Wright was elected president; Revs. Ayling, Williams and Swartz, vice presidents; secretary, Mrs. M. L. Spencer; treasurer, Mrs. Manning Smith.

Messrs. Opie Read and Nixon Waterman, two noted authors, give an entertainment for the Keeley League.

Rev. Richard Haney, D. D., preaches here.

Miss Sarah Snyder, of Streator, the first school teacher in Dwight, visited friends here.

Mr. and Mrs. G. W. Boyer were given a fine dinner by their children and their families upon their return from a visit to Pennsylvania.

The S. of V. elected the following officers: Commander, J. K. Buffham; senior vice, Fred Mowbray; junior vice, Roy Seymour; Camp Council, W. G. Dustin, Orville Brown and S. H. Boyer.

The Ys give a doll fair which was very successful.

Nelson C. Hansen and Miss Emma Sayers were married in Chicago.

Revival Meetings Will Be Continued for Another Week at M. E. Church.

The revival meetings which are being conducted by Rev. G. H. McClung are largely attended and Rev. McClung has delivered some splendid, forceful sermons, full of interest and good to all. These services will be continued another week and everyone is invited to attend the meetings.

The subjects are as follows:  
Saturday night: Christian Development.

Sunday morning: The Universal Priesthood of Man.

Sunday evening: God Crowded Out.

Monday: Passing of the Soul's Opportunity.

Tuesday: Is There a Heaven and a Hell?

Wednesday: The Leaven of Noble Living.

Thursday: Saved or Not Saved.

Friday: Three Gates on Each Side.

Saturday: The Last Step.

Danish Masquerade.

The masquerade ball given by the Danish Brotherhood Tuesday evening at Mazon Hall was largely attended by both spectators and those fond of dancing. The many varied costumes, some pretty and some very comical, combined with the funny masques, added to the gaiety of the occasion, and all present spent a happy evening. The Lyric orchestra furnished the music for the occasion.

About eleven o'clock all unmasked, after which dancing was resumed until an early morning hour.

The prizes were awarded as follows:  
Men's prizes—1st, Chris Riber; 2nd, Julius Deemer; 3rd, Theo. Martin; 4th, Roy Griffith.

Ladies—1st, Miss Rigga Nelson; 2nd, Mrs. Hans J. Hansen; 3rd, Miss Caroline Anderson; 4th, Mrs. Marius Nelson.

Advertised Letters.

List of letters remaining in the post office at Dwight, County of Livingston, State of Illinois, unclaimed Jan. 8, 1914.

To obtain any of the following letters, call for advertised letters, giving date of list.

If not delivered will be sent to dead letter office Jan. 22, 1914.

POSTALS.

1. Anderson, Carl

2. Doherty, Miss N.

3. Kennedy, Mrs. L. T.

4. Roth, Chas.

5. Sorensen, Emil

6. Tucker, Albert

LETTERS.

1. Nelson, Miss Edna or Eda

2. Nelson, Mrs. P. P.

Wm. G. DUSTIN, Postmaster.

Hon. E. L. Monser Dead.

The above named gentleman died at his home in Wenona Thursday. He was president of the Wenona Coal Co. He had many friends in Dwight and at one time was quite prominent in politics, and a candidate for the legislature from this district. He had been ill for some time.

Must Be Striven For.

The old saw runs, "Sweetest nuts have hardest shells." This, we suppose, is a quaint way of saying that everything worth the having requires both pains and strains to acquire. The gold is not obtained until the rocks are crushed and the fires are applied. The best fruits of learning are obtained after great expense of time, labor and investigation.

Keep a Thankful Heart.

The unthankful heart, like my finger in the sand, discovers no mercies; but let the thankful heart sweep through the day, and as the magnet finds the iron, so will it find in every hour some heavenly blessings; only the iron in God's sand is gold.—Henry Ward Beecher.

Get your job printing done at this office. We can do it satisfactorily.

## Chinese Dread of Milk.

A Chinese has the same dread of milk that an American has of oysters out of season. Several evenings ago a Chinese dignitary, who had just come into the country to study educational institutions, was taking dinner with a widely known educator in an uptown hotel. He ate freely of the American dishes until it came to the last course. Looking at the ice cream dubs for some time, he finally took a mouthful. It must have given him a pleasurable sensation—this first taste of ice cream—for he smiled pleasantly at his host. Suddenly another Chinese, who was present and who had not taken any of the dessert, spoke quickly to him a single Chinese word. In an instant the dignitary spat out his mouthful on his plate, much to the consternation of every one at the table. "What did you say?" inquired the host of the Chinese who had spoken. "I said 'milk,'" was the stoical reply.—Pittsburgh Dispatch.

## How Macaroni is Made.

This is how macaroni is made in Italy: To very glutinous wheat flour is added a plentiful supply of dried eggs. Mixed with water, this becomes a dough, which is so thickly kneaded as to be difficult to impress with the fingers. Then it is carried to a round press perforated with holes, through which the dough is pressed by means of a heavy plate worked by a screw. The result is macaroni without holes in the sticks. Pipe macaroni is made through a similar press, with the difference that a round piece of metal makes the central hole. As it issues in long, snaky ropes from the bottom of the press they are violently fanned to prevent them from sticking together and are afterward taken out into the open and laid on long bamboo poles to dry. Two or three days' exposure in the warm, sunny air of Italy makes the dough pipes hard and brittle and fit to use for food.

## A Greatly Desired Lady.

It would appear from bits of the social gossip of her day that Miss Burdett-Coutts' nearest approach to an occupation was refusing offers of marriage. It is stated in "Intimate Memoirs of Napoleon III." that the name of the "prince of adventurers" was connected with hers, that she refused the Duke of Wellington and a score of lesser gentlemen.

For years the great heiress was the most glittering matrimonial prize in England, and when at last she consented to change her condition by marrying an American a London club wit struck a responsive chord by observing: "I don't blame Ashmead Bartlett for proposing to the baroness. I've done it myself. I regard it as a duty every Englishman owes to his family."

## The Air Man's Dream.

A French aviation expert is of opinion that the day will come when communication between the earth and the moon and stars will be possible in aeroplanes. Providing that radium is one day found in larger quantities and that some way of harnessing its energies is discovered by scientists, he calculates that an aeroplane weighing a ton should be able to cover the 238,800 miles which separate the earth and the moon in three hours and five minutes. About 800 pounds of radium would be necessary to provide the fuel for the journey. At the current price about \$10,000,000,000 worth would be required.

Trips to certain of the stars be considered equally practicable.—London Tit-Bits.

## Ants Walk on Water.

It may not be new to observers of animal life, but I have been much interested in watching the common house ant here in Rio de Janeiro. We have an American fly trap. The sugar was one day covered with ants, so I placed the trap on a finger bowl standing in a plate of water. The ants when they came to the edge of the water ran around the bowl until convinced there was no way across, and then calmly took to the water and ran across it by aid of surface tension without getting their feet wet. Having presumably been home to the nest, they returned for more sugar, crossing in the same way, and this went on regularly, a steady procession crossing the water.—Nature.

## Modest John Keble.

If John Keble had had his way it is possible that his famous "Christian Year" might never have been published. He was extremely averse to it and only yielded to the importunities of his friends and the pleadings of his father. Even so he refused to have his name on the title page. In forty-five years it went through 153 editions, and since it went out of copyright they have ceased to be counted.

## Consolation.

"When I was your age," the self-made man complained, "I was not spending money that had been earned by somebody else."  
"Well," his spendthrift son replied, "you missed a good thing."—Chicago Record-Herald.

## Guerillas.

Guerilla, which is a Spanish word meaning "little war," was first applied to armed peasants who worried the French armies in the Peninsular war, 1808 to 1814.

## Settled.

"Have you placed your interest in the estate in the hands of a lawyer?"  
"Yes, and in his pocket too."—Buffalo Express.

Let the only motive to read be the love of truth.—Thomas a Kempis.

## RAILROAD NEWS

Conductor Bagnell was home sick this week.

Conductor Frank Fox is taking a lay off this week.

Conductor Atkinson was off duty last week on account of sickness.

Mrs. Lawler, wife of Conductor Lawler, visited friends here last week.

The new time card on the Alton has thrown some of the passenger conductors back to freight.

Brakeman Fitzsimmons was sent here last week to relieve Miller, whose wife was sick, at his home in Bloomington.

Carl S. Vrooman, of Bloomington, has announced as a Democratic candidate for United States senator. He appears to be serious.

The 9:32 a. m. train north carries mail. Business men should bear in mind that all mail north for that train must be in the postoffice by 9 a. m.

The Alton had a freight wreck between Madison and Howard street, Pontiac, Monday evening which completely tied up both main tracks from 6:15 to 8:51.

Secretary of State Woods has announced himself a candidate for the nomination for United States senator at the primaries. They are thick, but wait until Roger gives them all the hook.

The new time card is some better. Passengers can now get out of Dwight at 6:15 a. m. and into Chicago at 9—accommodation and milk train. The next train is 9:32, arriving in Chicago at 11:45—this is good if on time. The next is the red train at 2:56 p. m. arriving in Chicago about 5 and the next at 6:50, arriving in Chicago about 9 p. m. None of the early morning fast trains north stop here. The first train out of Chicago is 9 a. m., arriving about eight minutes later than the old card. The next is the red train—no material change. The early afternoon train leaves Chicago at 1 p. m., arriving here at 3:15 p. m., carrying mail. The Accommodation leaves Chicago at 5:30 and arrives at 8:10 p. m. The Hummer is not changed, neither are the night trains materially. The train out of Chicago at 11:30 is changed to 11:15. The changes bet-ter the passenger service out of Dwight if the schedules are kept up.

Read this paper over carefully and see if it does not merit your subscription.

Observe: here is a form of harnessed energy that may be visualized in a 90 pound machine which will go on hour after hour yielding a power that six strong men could not equal for more than a very short time. Contrast the wages of the men—if they could prolong the strain—with the trivial cost of running the machine. That's

In this case

the Best

actually is

the Cheapest

Electric Power

It's the modern realization of the Arabian genie—a giant that responds at the touch of a button with the strength needed to do the work. The big thing about it—and too much emphasis can't be given the fact—is that it manifests its efficiency, economy and all round satisfying quality anywhere.

If your machinery, whatever it is, isn't run by it we would like to talk with you about Electric Power.
