Observe: here is a form of harnessed energy that may be visualized in a 90 pound machine which will go on hour after hour yielding a power that six strong men could not equal for more than a very short time. Contrast the wages of the men—if they could prolong the strain—with the trivial cost of running the machine. That's

## Electric Power

It's the modern realization of the Arabian genii—a giant that responds at the touch of a button with the strength needed to do the work. The big thing about it—and too much emphasis can't be given the fact—is that it manifests its efficiency, economy and all round satisfying quality anywhere.

If your machinery, whatever it is, isn't run by it we would like to talk with you about Electric Power.
