

Consider Thy Duty
What Thou Art And Know

JOAN OF ARC,

a mere slip of peasant girl, at the age of fifteen, led the armies of France and saved a nation.

So today the future of a nation depends upon the youth of today, and the home training and inspiration they receive now.

Teach that boy and girl of the value of money. Instill the incentive to accomplish something worth while. Prepare them for the battles of the future by laying the foundation today. Teach them to save.

Open an account for the boy or girl here, where stability, service and co-operation combine for mutual benefit, advancement and growth.

JOHN W. BAKER, District Mgr.

Union Central Life Insurance Co.

Gov. Patterson on Alcohol.

The following words, coming from a man who was formerly the wet Governor of Tennessee, and who like many others has been forced to change his attitude toward the question of temperance, has special force. The words are from verbatim report of an address he recently gave at Columbus, Ohio:

"If we have no sorrows, liquor creates them. And if we have them it increases them and makes them harder to bear.

It blights the young man like lightning does the tree, and leaves him stripped of his heritage.

It takes from middle age ambition and hope, and robs old age of its serenity and peace.

It is the thief of character.

It turns many men into monsters and women into harlots.

It invades the ballot box to corrupt it.

It weakens the administration of justice.

It is the polluted stream which mingles with the current of public affairs, and poisons all that it touches.

Wherever it comes it brings a sorrow, and whenever it goes it leaves a remorse.

The spirit of the toasts is that liquor will give us joy and drown our troubles. There never was a false note struck on the chords of human life. Drink does not drown our troubles, it floats them. We may lock them in the closet in a night of debauchery and think we have forgotten them; but they come trooping forth in the gray dawn of the morning to mock and deride us. When the magic wand is withdrawn the dreams have vanished—the bright illusions which our distempered fancy has pictured are gone—the castles have fallen; reality has come, and only the dull cold ashes of regret remain."—Adv.

Mamma's Store

"This is Mamma's Store"—How often we hear these words from tiny lips. As the child grows older the same impression grows stronger and she will say instead "This is OUR Store."

Our Future Customers Are Growing Up With Us

Become acquainted with our goods and prices; you will also become a regular patron and feel this is "my store."

Our customers have found that they can buy anything here in perfect confidence—no goods of doubtful quality are admitted to our stocks—and the price is right.

QUALITY GROCER

KITCHEN UTENSILS

Everything the kitchen wears—from cook stove to bread pan—is here in best quality and generous variety for your selection.

And quality is the chief thing to consider in kitchen ware. Poorly made pots and pans are not only expensive in the long run, but no matter how efficient the housewife may be, she cannot procure good results in cooking unless she has the proper "tools."

We invite your attention especially to our display of aluminum and high grade enamel utensils upon which we have placed special prices this week.
