The reason we are able to do such good laundry work is because we have pure soft water and we filter it. Besides that we take the utmost care with every article. Give us a trial. Livingston Laundry, Phone 247.—Adv.

Mrs. Carl Miller entertained a number of friends Wednesday afternoon at a bridge party at which everyone enjoyed themselves very much. The out of town guests were: Mrs. McGregor, Mrs. Rudolph Fox, Mrs. Hoffrichter and Mrs. James Lyons, all of Pontiac.

To Enjoy The Popular Dances. The feet must be free from pain. Many women and men realize the comfort to be enjoyed by using Allen's Foot-Ease, the antiseptic powder to be shaken into the shoes before the dance. Since dancing has become so popular, Allen's Foot-Ease is in demand everywhere because it rests the feet and makes dancing a delight. For Free sample, Address, Allen S. Olmsted, Le Roy, N. Economical Production is Essential in Successful Manufacturing, but it's Realization Demands the Conditions for it

If any plant large or small is fitted with steam driven machinery, its operating expense figures out one of the largest items in the general cost sheet. It throws away power at many places between the engine and the tool. Follows then that a form of energy that delivers its maximum at the point wanted, writes this item in lower figures. You have that in

Electric Power

There's no waste about it. It responds with just the power required—no more, no less. If it had no other distinction this would be enough to place it in a class alone. But this is only one of its numerous features of superiority and the manifestation of all is as marked in a small shop as a big one.

If you operate any kind of machinery let us talk to you about Electric Power.

Last Saturday evening at the home of the bride's brother, Carl Lydigsen, in Chicago, occurred the marriage of Miss Emma Lydigsen, of Dwight, to Mr. Chris Sorenson, of Newell, Iowa. Rev. H. Peterson performed the ceremony.

The bride was attired in a very pretty gown of white silk trimmed in lace and carried a shower of white roses.

Immediately after the ceremony a bounteous wedding dinner was served. The bride and groom departed late in the evening for Iowa, where they will spend their honeymoon.

They will make their future home in Round Grove, where Mr. Sorenson will engage in farming on one of Mr. Andrew Lydigsen's farms.

Those from Dwight who attended the wedding were: Mr. and Mrs. Leslie Chase, Mr. Andrew Lydigsen and daughter, Elma, Mr. and Mrs. A. H. Weller and Miss Lillas Pierce.

Bunting-Weller.

Thursday evening, Feb. 5, occurred a very pretty wedding at the home of Mr. and Mrs. R. E. Bunting, when their daughter Ethel Mae became the bride of Mr. Anton H. Weller, Rev. Geo. H. McClung officiating.

Promptly at 6 o'clock to the strains of Lohengrin's wedding march played by Miss Ruth Giles, the bridal party marched through an aisle of ribbon drawn by little Misses Esther and Vera Hahn, to their places before a beautifully decorated bay window.

The bride was attired in a beautiful gown of white net lace with bead trimmings over messaline and carried a bouquet of white roses. The bridesmaid, Kathryn Weller, wore pale pink chiffon over pink and carried a bouquet of pink carnations. Leslie Bunting, brother of the bride, acted as groomsmen.

After the ceremony a very delicious supper was served in the dining room to about fifty relatives and friends, the tables being tastily decorated with carnations and ferns.

The guests from a distance were Mrs. Chas. Luce and sons, Edw. and Roy, of Marseilles; Mrs. John Essington, of Streator; Mr. and Mrs. T. Essington, of Streator; Miss Carrie Weller, of Chicago; Miss Celia Thompson, of Odell, and Mr. and Mrs. Geo. Essington and family, of Odell.

After a short wedding trip the couple will reside on a farm five miles east of Dwight.

A fine lunch was served and at a late hour all journeyed to their homes leaving Miss Pearl many beautiful presents and wishes for many more happy birthdays.

New Features of the Rock Island Disc

The new 1914 Rock Island Defiance Jr. Disc Harrow has a number of added features. In addition to being a light-running harrow, simple and easy to handle, and fitted with the famous Rock Island Oscillating Scrapers and hard maple bearings that have always proven best; this great disc now has double levers and is equipped with a steel stub pole and double-leaf seat spring—features that every farmer has long wanted and will appreciate.

Rock Island Defiance Jr.

Defiance Jr. Disc Harrows all have double levers; Colter steel blades, which cut better, retain sharp cutting edges and last longer. Note the new combined fore-carriage and tongue truck which fits any standard disc. May be used either with or without tongue. Axle pivoted in center, allowing either wheel to pass over an obstruction without strain. Adapted to 2, 3 or 4 horses, with or without pole.

The new steel stub pole cannot split or break, but adds strength to the harrow,

making it even more durable than it was before. Neat in appearance, light in weight.

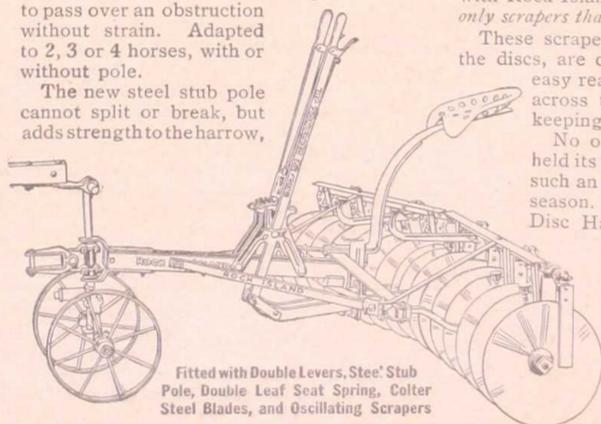

The old spring seat has been replaced by one of spring steel, double-leaf type, giving more comfort to the operator.

Defiance Jr. Disc Harrows are all fitted with Rock Island Oscillating Scrapers—"the only scrapers that scrape."

These scrapers, resting near the center of the discs, are controlled by a foot lever in easy reach of operator. They sweep across the entire face of the discs, keeping them always clear and free.

No other one implement has ever held its popularity so long and shown such an actual increase in sales every season. There are more Rock Island Disc Harrows made and sold every year than any other make.

Don't take our word for it. Come in and see the many exclusive features of the Rock Island Defiance Jr. for yourself. Let us show you where this harrow is better. Now is the time to investigate.
