An ordinance has been passed for the paving of Locust street, from South to Torrance. This is the street running north and south in front of the city cemetery. This improvement is a much needed one, as this is the main thoroughfare to the territory southeast of the city. The pavement is to be twenty-six feet wide, brick surface with concrete base and concrete curb and gutter. The total estimated cost is \$18,561.44, and the city is to take care of the cemetery front-

Monday evening while several boys in the west part of the city were play ing with some gunpowder in a tin can Robert Wilhoit, aged seven, touched a match to it. The blaze from the exploding powder struck the boy in the face, burning the skin from the right side of the face as well as burning both eyes. The right eyelid must have been open at the time, as the upper half of the ball was badly burned. Mr. Hoover, the supervisor, took charge of the boy and turned him over to Dr. Middleton, who placed him in St. James Hospital and operated upon the burned eye Tuesday morning. The sight of the left eye will possibly be saved, but it is doubtful if ever the right eyeball can be saved.

PROM THE COUNTY.

Ray Defenbaugh and Howard Talbott, of Ancona, were badly injured in Streator Sunday as a result of an automobile accident. They were leaving Streator in their automobile and when crossing the Wabash tracks the machine struck a raised spot in the pavement, throwing them out. Defenbaugh was badly cut about the head and Talbott received some injuries. Both will recover.

Livingston county is to have another coal mine. Last week there was organized in Streator what is to be known as the Evans Coal Company which is later to be incorporated. This company has started work on the sinking a mine in Reading township. Edward E. Evans, who was as-

sociated with his father, the late Richard Evans, in the operating of the coal mine here, is the president of the concern.
