### SMITHS WIN TWO.

Livingston Parks and Chicago Gunthers Meet Defeat at Hands of the Locals.

The Livingston Parks were the victims of the F. L. Smiths at West Side Park Sunday, June 10th. Mickelson was on the mound for the Smiths and he pitched a fine game. Jody Knight, the first man up, connected for a good safe drive to right center for two bases. The other four hits credited to the visitors were Texas leaguers of the scratchy variety. Acklin went along nicely until the fourth inning when he weakened. Trecker started things with a nice hit. Gutel hit down the third base line for three bases. Burns followed with a two base hit. J. Ketcham celebrated his return to game after a seven year vacation by putting the ball over the shed back of the left field fence for a home run. This is the longest hit made on the grounds since Ketcham defeated the Chicago Union Giants with the same kind of a drive in the seventh inning of a game played in 1907. Mickelson followed Ketcham with a nice clean single. Manager Knight chased Asklin and Donahue ended the inning by striking out Nielson and Naas. One run, enough to win the game, was scored on Donahue in the seventh on a base on balls to Naas and Boyer's long single. Gutel singled in the ninth but was caught off first.

Irwin, the Pontiac catcher, was the champion strike out artist. He whiffed three times without even fouling one off.

Dockle Miller played a nice game at third and Trecker starred in the outfield; his double play in the fourth when he caught B. Jobst at the plate shut off the only chance Pontiac had to score.

The Smiths are hitting like fiends and fielding like major leaguers and from now on will be hard to beat. Mickelson and Hamilton are both in fine shape and the heavy hitters on visiting teams will have their troubles from now on.

Two base hits—Knight, Gutel, Burns. Three base hits—Gutel. Home run—Ketcham. Struck out—By Acklin, 4; by Donahue, 3; by Mickelson, 5. Double play—Ketcham unassisted.

Ketcham will be on first base regularly from now on. Brenelsa, Trecker and Burns will take care of the outfield.

Next Sunday the Morris Reds will make their second appearance at West Side Park. June 21st the Smiths will journey to Interurban Park. June 25th they will meet the Livingston Parks.

**HAS KANKAKEE FOUND THE SAME?**

The Answer is Found in the Straight-forward Statement of a Kankakee Resident.

We have been reading week after week in the local press of Dwight citizens who have been rid of distressing kidney and bladder troubles by Doan's Kidney Pills, and we have often wondered whether the same high opinion of this medicine is to be found in our neighboring towns. This frank and earnest statement by a well-known and respected resident of Kankakee will set this doubt at rest.

F. M. Karr, 519 Harrison Ave., Kankakee, Ill., says: "I have no reason to change my good opinion of Doan's Kidney Pills which I publicly expressed some years ago. I use them occasionally, when I have need of a kidney medicine and I always get good results. I suffered from a lame back and other kidney disorders for years. When I got up in the morning, I felt just as tired as when I went to bed and the kidney secretions were unnatural. Doan's Kidney Pills were recommended to me and I got a box. They were just what I needed and in a few months the troubles had entirely disappeared. I hope that my experience will help other kidney sufferers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other—Adv. 27

### CROP NOTES

BY ROY C. BISHOP  
County Agricultural Agent

#### Insects Damaging Corn.

Due to the dry weather, the work of insects is showing up strikingly in the corn.

The particular insect which is working the greatest destruction, now, is the corn root aphid. Already several fields have been destroyed. Some have thought their poor stand and weak plants are due to seed of low vitality when, in fact, the aphid is bringing this about.

Now is the time to study the aphid. If corn has been planted on the same land two or more times you can expect this insect. Its presence is always betrayed by large numbers of small ants which will be seen working about the corn plants. It will also be noted that plants affected with the aphid are quite small, weak and yellowish. Remove the plants carefully with a shovel and gently cause the dirt to fall away from the roots. Observe all exposed roots before the dirt is shaken from the roots. The aphid is apple green in color. Many of them will not be larger than the head of a pin. Some will be larger and have wings. A good place to look for the aphid is on the roots near the mother kernel. Watch the ants when the soil about the roots of the plants is just loosely opened up. They will be seen to feed upon the back of the aphid where a sweet exudate is found.

These ants are the keepers of the aphid—without the ant the aphid is not able to secure its food. The ants care for the eggs and see to it that the small aphid are properly fed.

A harrow, or weeder, used so as to stir the ground immediately around the stalk of the young plants will stop the ravage of these pests to a considerable extent. This operation destroys the ant nests and leaves the aphid uncared for. Frequent cultivation, throwing some soil to the corn will also help. In those cases, however, where the percent of stand has been very much lowered and the field is badly infected, it is advisable to pulverize the soil vigorously, harrow and replant. Late vigorous pulverizing will, in most cases, prevent any further injury from the aphid.—Roy C. Bishop, Agent, U. S. Dept. of Agriculture.

Hamilton pitched a great game for the home team, striking out thirteen of the once famous Gunthers at West Side Ball Park Wednesday afternoon by a score of 6 to 2.

The game was one sided and anything but interesting to watch. The Smiths scored three runs in the first inning. It took the Gunthers by surprise and they seemed to lose all heart in the game. The Smiths would have won the game without scoring another run but to make a greater total to the score and gain a larger lead they scored again in the third and fifth.

Hamilton pitched a great game for the home team, striking out thirteen of the once famous Gunthers. He was very effective in pinches. He was in danger in the seventh and ninth inning, but through his effective work and good support of the team only one run was made by the Gunthers in each inning. At no other time during the game did a Chicago man reach farther than first base.

The business houses were all closed during the game and a good crowd was out to witness the contest. Although somewhat disappointed with the showing the Gunthers made all left the ball park with the feeling of spirit that Dwight has "Some ball team."

The feature of the game was the throw from deep center by Brenelsa to Ketcham at first base, making a perfect throw and completing a double play.

**MASTER'S SALE OF REAL ESTATE.**

The Lower Farms in Broughton Township.

State of Illinois, Livingston County, ss. In the Circuit Court.—In Chancery, No. 4539.—Partition.

Frank D. Lower vs. Augusta S. Glover, Albert M. Lower, Leon L. Lower, Marietta Hiddleston, Lillian L. Maguire, Grace Morris and Gertrude A. Parsons.

Public notice is hereby given that in pursuance of a decree of the Circuit Court of Livingston County, Illinois, entered at the January term, A. D. 1914, of said Court, on April 1, 1914, in the above entitled cause, I, Stevens R. Baker, Master in Chancery of Livingston County, Illinois, will sell at public auction, to the highest and best bidder, at the north front door of the Court House in Pontiac, in said County, at the hour of two o'clock in the afternoon, on

SATURDAY, JUNE 27, A. D. 1914,

the following described real estate, to-wit:

The southwest quarter of section ten (10), in township twenty-nine (29) north, range eight (8) east of the third principal meridian.

Also the west half of the northeast quarter of section fourteen (14), in township twenty-nine (29) north, range eight (8) east of the third principal meridian.

All situated in the County of Livingston in the State of Illinois.

Terms of Sale:—Ten per cent of purchase price cash in hand on day of sale, and the remainder on February 1, 1915. The said lands will be sold subject to a lease to Leon L. Lower, expiring March 1, 1915, at which time the purchaser or purchasers shall have possession; the rents for the year ending March 1, 1915, are reserved; taxes to and including taxes assessed for the year 1914 will be paid from the rents aforesaid.

The said sale and all my proceedings in this matter are subject to the approval of the Court, and my authority to make the sale, and the terms thereof, are derived from the decree above mentioned and other decrees in said cause, which are on file in the office of the Clerk of the Circuit Court of Livingston County, Illinois.

Abstract of title may be seen at my office at 222 North Main St., Pontiac, Ill. Dated at Pontiac, Illinois, May 25, A. D. 1914.

STEVENS R. BAKER,  
Master in Chancery of Livingston County, Illinois.  
C. J. Ahern and H. E. Torrance,  
Complainant's Solicitors.  
Adv.—22-4w

**Announcement.**

I wish to announce to the public of Dwight and vicinity that I am now in business for myself, and prepared to do first-class painting and paper hanging, either by contract or by day work.

A chance to demonstrate my ability, to make prices that are right and to give satisfaction in every way, is all that I ask. For anything in my line please call me up—Phone No. 355-W. Adv. 22-4w C. W. CHRISTIANSEN.

### SPECIAL TRAIN FOR TRIP TO THE UNIVERSITY.

The Illinois Central Railroad Makes One-Way Fare for Round Trip.

Arrangements have just been completed with the Illinois Central Railroad to furnish a special train to Urbana for the farm operators of this county, Wednesday, July 1st. A round trip ticket will be sold at one-way rate, making the round trip ticket from Pontiac \$2.32.

The officials of the Illinois Central Railroad agreed to furnish this special train at one-half fare as a special assistance to the Livingston County Soil and Crop Improvement Association. The officials of this road feel that should they carry our people at approximately cost, they would yet be much ahead ultimately. Better methods of crop production and of soil management are just as essentially important to the railroads of the county as to the towns and villages, or the farmers themselves. It is indeed very gratifying to know that the I. C. officials have taken this position. It should also be reassuring to those who are looking more carefully into the business details, science and best practices of farming. Big business enterprises everywhere have already recognized the importance of better soil and crop management and their convictions are being backed up by substantial financial and moral support.

This train will be started at Minonk about 4:30 a. m. July 1st and make all stops in the county. It will be necessary to go by way of Kankakee and the time required for the trip will be about four hours. Train will leave Urbana on return trip at about 6:30 p. m.

The object of this trip is for the purpose of giving our people an opportunity to get intimately acquainted with the work of the College of Agriculture and the Experiment Station farm, also to see the results obtained on the Experiment Station farm plots. On these plots practically all the results in crop production and soil and livestock management which have been read about in bulletins and agricultural papers and which have been discussed in our agricultural meetings will be seen actually demonstrated under field conditions. Not only this, but hundreds of greenhouse pot cultures, showing the effect of all essential elements of plant food upon the plant and the proper method of soil management will be seen. Feeding cattle; dairy cows; heavy and light horses; mules; hogs; poultry, etc., will be inspected and the entire day will be spent in seeing these things and hearing them discussed by College Professors who are in charge of the work.

Plans are being made at the University for the entertainment of the women. Ladies are specially invited to take this trip. The Household Science Department of the University will be open to them and members of this faculty will take charge of the party. The ladies will also be interested in the field plots and it is desired that they shall accompany the men on this field inspection.

The program for the day has been about completed with the University. Noonday lunch will be served in the magnificent new stock judging pavilion on the Experiment Station farm. At this time several short addresses by University officials will be delivered.

It will be necessary for those desiring to go, to send their names to the Livingston County Soil and Crop Improvement Association office, at Pontiac, or to register in that office by June 25th. The number of coaches and train accommodations and arrangements at the University will depend upon the number of persons who shall take this trip. Everyone interested in the agriculture of this county is invited to join the party on this trip.—Roy C. Bishop, Agent, U. S. Dept. of Agriculture, Pontiac, Ill.

**Cemetery Advertisement.**

Advertising a cemetery is something not generally encountered, but this recently has occurred at Sydney, N. S. Wales, Australia. A newspaper advertised a local cemetery as "commanding so beautiful a view of the bay that people who have tried it cannot be persuaded to go elsewhere."

**Sudanese Products.**

Sudan is the chief source of the world's supply of two important products—gum arabic and ivory. About 30 per cent of the ivory and 15 per cent of the gum is shipped to the United States direct. The better qualities of the gum are used abroad by confectioners in making candy and the lower grades in the manufacture of glue and muclage.

**Object matrimony.**

Young woman of ancient lineage, beautiful as Helen, prudent as Penelope, economical as the Electress Sophia of Brandenburg, witty as Mme. de Staël, austere as Lucretia, charitable as St. Elizabeth of Hungary, devoted as Florence Nightingale, loving as Virginia, with the voice of an angel, an artistic soul and possessed of a splendid fortune, desires correspondence with a view to matrimony.—German Newspaper.
