

A PENNY SAVED IS A PENNY EARNED

"Save, to become respectable and respected. It's the quickest and surest way to success" —Franklin

THE lad who walked the streets of Philadelphia with his clothes under his arm, munching a dry roll was destined to be the one man whose sterling character obtained for the stricken Colonists the confidence and support of France.

Personal Affluence

The characteristics that marked the eventful life of Franklin were his capable economies, his strength and honesty of purpose, and his confidence in himself.

You can be a Franklin in your own individual way. Make use of your capabilities — build confidence in yourself and exercise purposeful economies.

Profit by Franklin's example. Let us talk over your financial problems with you.

The most durable, economical, and practical system of heating and ventilating schoolrooms constructed to date, is the one manufactured by the Round Oak Folks, "Makers of Good Goods Only." It changes the air every few minutes; delivers pure, fresh, moist air for the children to breathe; consumes all fuels successfully and economically, and costs no more than inferior imitations.
