

**DWIGHT NOTES**

Joe Tavares was a Pontiac caller Friday.

Messrs. Henry and Richard Judge were Henry visitors Sunday.

Mrs. Archie Atkinson and son, Willis, of Bloomington, visited her mother, Mrs. H. Patterson, on Thursday.

Dr. Hamilton and Mr. Roy Baker attended the International Sunday School Convention at Chicago yesterday.

John Holm, of Los Angeles, Cal., visited relatives in Pontiac and Dwight this week. Mr. and Mrs. L. P. Holm accompanied him to Joliet on his return home.

The Sons of Veterans Auxiliary will hold their regular monthly meeting next Friday evening at Odd Fellows Hall at 7:30. All members are requested to be present.

This week's issue of the paper contains the tax assessment lists of Round Grove and Nevada townships. In next week's issue the Dwight and Sunbury tax list will be printed.

Mrs. W. C. Bartholic and Miss Elsie autored to Bloomington last Sunday with Mr. and Mrs. Chas. McWilliams, and upon their return brought with them little Robert Bartholic, who spent the week here.

On Tuesday evening the Tuesday Needle Club together with their husbands enjoyed a six o'clock picnic supper in Renfrew Park. The evening was delightful and the supper delicious and all had a fine time.

Owing to the Fourth of July coming on Saturday this year this paper will be printed Thursday afternoon of next week. All advertisers and correspondents are requested to have their copy in at this office on or before Wednesday.

There has never been a time when our people showed more enterprise and appreciated what a beautiful city we have, and what improvements here and there will do for everybody, than right now. Keep boosting. That's what brings results.

Things go pretty hard with the fellow who refuses to support his wife and family. Sheriff Will Patterson recently arrested a Dr. Danis for that charge, and he is in jail until he comes too and takes care of his family. Pretty good plan.

Dr. and Mrs. Chadz Bell and family will leave next Thursday for Lake Okechogee and Spirit Lake, summer resorts in Iowa. Later they will go to Fargo, N. D., for a visit. They will be away until about the 15th of July, during which time Dr. Bell's office will be closed.

The body of Della Anderson, a sixteen year old girl who died in Shelbyville, Mich., was shipped here the first of the week. She was the daughter of Mr. Chris Anderson (brother of Charlie Anderson of this place) who used to live here. The body was taken to the Kempton cemetery for burial.

About twenty-seven of the members of the Dwight Rebekeh Lodge went to Braceville Thursday evening and gave the initiatory work for five candidates who were taken into the lodge at that place. After the meeting refreshments of ice cream and cake were served by the Braceville lodge. The Dwight crowd returned home on the 1:20 a. m. train.

While trying to board the south bound 11:20 train Thursday morning, after it was in motion, a lady from out of town lost her footing and was partially thrown beneath the cars. But for the timely and immediate assistance of Mr. Theodore Edwards, a visitor in this town, who pulled her from between the wheels, she would have been very seriously, if not fatally injured.

If you, reader, don't interest yourself in the "Home Coming Week" it will not be successful. Send in names of old or young Dwightites who have moved away. Write to them and give us the replies—that part about the home coming, and soon we will have a home coming issue of the paper, with the program, and give the names of those who will come back and see our beautiful city. Some of them have been away since we were a country town and wagons were getting stuck in the mud, on East and West streets.

The Congregational Sunday School held a picnic Thursday in the Bergman grove, west of town, at which there was an attendance of over two hundred. Some went in the morning and stayed all day, while others went out for dinner. All spent a happy time in the woods, and especially to the little ones, the day will long remain a pleasant memory. At one time it was feared the rain would spoil the day, but it proved to be only a shower and only a few people left the grounds. Tennis, base ball, different kinds of races and other games were played, there was plenty of good things to eat, and no accidents occurred to mar the occasion.

**F. L. Smiths Win Two Games from Livingston Parks.**

Sunday, June 21, the Smiths journeyed to Interurban Park and in a listless, poorly played, poorly umpired game, won by a score of 7 to 6. Dockie Miller was not in the lineup so Gutel went to third, Burns to second and Mickelson played outfield. Hamilton twirled for the Smiths and Donahue for the Parks. The Smiths scored two runs in the first on Mickelson's single and Boyer's two-bagger and some poor throwing by the Park team; another in the second when Gutel was hit by a pitched ball, advanced on a wild pitch and scored on a single by Naas. In the fourth Gutel connected for a home run. In the fifth some errors and two singles netted two more. Their last run came in the sixth on two base hits by Hamilton and Brenelsa.

The Parks scored three runs in the second when the umpire called a foul ball hit by J. Jobst and allowed him a two base hit; this was followed by two singles and a sacrifice hit and an error; one in the fourth on a base on balls, two sacrifice hits and an error; one more in the seventh on a two base hit by Meyers and some more errors. Their last score came in the eighth on some more errors by players and umpire.

Following is the detailed score of the comedy:

Thursday was picnic day at Interurban Park and the Smiths and Livingston Parks met for the third game of the season's series and the Smiths made it three straight. Mickelson pitched five innings for the Smiths and the Parks scored two in the fifth inning when Mickelson eased up, the Smiths having an eight run lead. Hamilton pitched the balance of the game and allowed but one score in the seventh on two bases on balls, a passed ball and scratch hit.

The F. L. Smiths scored one in the third, one in the fourth and six in the fifth when the team batted around.

Two base hits—Ketcham, Meyers. Three base hits—Woods, Hare. Home runs—Burns. First base on balls—Off Ackland, 2; off Barre, 1; off Mickelson, 1; off Hamilton, 3.

**Special Train to University.**

Next Wednesday a special train is to be run to the University of Illinois at Urbana giving the farmers and their families a chance to visit there and get the best first hand information concerning soil management, crop production, animal husbandry, household science work and also to familiarize themselves with the working plan and extent of our great institution of learning. Plans are being made for a special coach for boys and young men whom we hope may become interested in taking agricultural work at the college. There is no question but this trip will have a far reaching effect upon these young people and result in much good.

A special train is to be run from Pontiac leaving there at 5:35 a. m. The fare from Pontiac is \$2.35.

A car on the Interurban, leaving Dwight at 5:00 a. m., is to run to Pontiac in time to take the special train there, and there will be a special car provided to bring the passengers from this section back in the evening. The special is scheduled to arrive in Pontiac at 8:30 p. m.

**Base Ball Notes.**

The Frank L. Smith base ball nine is doing good work, but has not struck the usual pace along the batting line. Sunday at Interurban Park, however, they defeated a nine picked from the whole county, and on umpire picked before he was ripe.

The Feds, especially the Chicago end, are playing about as good ball as anybody. They were in the lead one day recently, and that's more than the Sox or Cubs.

A majority of fans seem to think both the old league clubs in Chicago are under "bum" management. One hears it often remarked that the Sox have the best lot of players individually in the American League, but the team work is bad. They ought to be in the lead. The management of the Cubs is bad, and they are not winning the way they should. They have the best catcher in base ball and the same may be said of first base, some fine pitchers, and such batters as Zimmerman, Schulte and others. Both clubs are liable to defeat the champions one day and be defeated by the tail-enders the next day.

The 3-I League is headed by Davenport this year. It would be refreshing to see Bloomington land in the lead once in a life time. It is holding down the tail-end at this writing.

The Smiths will play in Morris the Fourth on account of no celebration at home.

The Smiths should arrange for two games during the week of the 17th of August—"Home Coming Week." It would be a nice thing for the entertainment of the visitors, and the "Home Coming" committee should make the games a part of the entertainment for the week. Everyone should pull together and boost.

**Lincoln Chautauqua's Tents Sage Green**

**Platform Lighted by Great Mazdas, Each Shedding 600 Candle Power Light.**

The new American institution, the Chautauqua, is just beginning to be recognized as a most important factor in the entertainment and popular education of the masses of people—i. e., people living in towns and communities having a population of 25,000 or less. Necessarily the problem of Chautauqua equipment has been hastily handled. So far every conceivable makeshift for housing and seating the people has been adopted. All well established institutions have been drawn upon for emergency aid, but the era of physical Chautauqua comfort is dawning.

In keeping with the permanent policies which undoubtedly must preserve and characterize its career, the Lincoln management has exercised that degree of initiative vouchsafed to an aggressive and permanent institution. The recognized efficient makers of the nation have been called upon for their best products in tent building by the Lincoln system. Its tents are made as well as tents can be made from canvas. The designs are original and were drawn for the Lincoln Chautauqua. No

big "tops." Every known measure providing for comfort and safety has been exhausted in the training of these men.

An entirely new feature in the Chautauqua world is the electric lights provided by the Lincoln system. They will be connected to the local company's wires, and the tent will be as well lighted as is your parlor or your favorite auditorium; indeed, as well lighted as were it a permanent structure in your city.

A second departure is the setting of the stage. The Lincoln Chautauqua system stage is inclosed this summer by both back and drop curtains. These curtains will be manipulated by the tent crew very much as are the curtains in a theater.

These improvements remove some of the crudeness of Chautauqua environment, and it need scarcely be said that this institution, which is believed by thinking men and women everywhere to deserve its distinctive place in American life, must provide for its clientele that degree of physical com-

fort has been overlooked by Mr. Oliver MacWilliams, perhaps the leading authority of the country in Chautauqua equipment. Not a thread, fabric, rope or pole in design or execution but has had his critical consideration. His tents are the best in portable auditoriums. All new tents ordered this year are made from sage green canvas, conceded to be the most pleasing shade or color, because it screens out the extreme brilliancy of light.

The crews, men in charge of tents, have been most carefully instructed in putting up and taking down these

**Our Query and Reply Department**

Is there any premium on the American half dollar of 1813?

No. The 1813 half dollar is not listed in any of the latest coin catalogues as commanding any premium. The silver half dollars of 1801, 1802 and 1815 are worth from \$1 to \$3.50 each, according to condition, but none of the half dollars coined during the intervening years is worth more than face value.

When was Massenet's opera "Manon" written? When was it first produced? Massenet wrote "Manon" some time in the early eighties. It was first produced at the Paris Opera Comique Jan. 19, 1884.

Why were "trade dollars" issued by the United States after the civil war? What is the value of one today?

The trade dollar of 1873 was issued for export to the far east to facilitate trade with China and Japan. It was not for circulation in the United States. The coin weighed 420 grains and was just a trifle heavier than the Mexican dollar. The issue was suspended in 1887. A trade dollar is worth today about 50 cents.

How long is the Panama canal? Forty miles.

Of what is sponge made? Of a fibrous substance composed of cells produced by tiny sea animals.

What is the nature of the organization known as the D. A. R.?

The Daughters of the American Revolution is a women's society, formed in Washington in 1890, with a national organization, branches in nearly all the states and a membership of about 95,000. Any woman is eligible for membership who is of the age of eighteen years and who is descended from an ancestor who "with unflinching loyalty rendered material aid to the cause of Independence as a recognized patriot, as soldier or sailor or as a civil officer in one of the several colonies or states or of the united colonies or states," provided that the applicant shall be acceptable to the society. Every application for membership must be indorsed by at least one member of the national society and is then submitted to the registrar general, who reports on the question of eligibility to the board of management.

What are the four largest cities in Illinois next to Chicago? Peoria, 66,950; Springfield, 51,678; Rockford, 45,401; Quincy, 36,252.

**Cheer Up.**  
There are some people who need to be cheered up all the time. There are some people who actually make business, pleasure, or enterprise, seem the wrong thing, and those people strew a path with shadows and thorns instead of sunshine. The man or woman who is continually growling is a curse to business and to any community.

We never heard it expressed that being was a good thing, but the following little poem from Tit-Bits has convinced us that even a real, nice, encouraging lie has got growing beaten a thousand ways, and a few of our Dwight people ought to read it and brace up. Here it is:

Here's to the man who lies to us, who's careless of the truth,  
Who slaps us on the back and says, "Gee! how you hold your youth!"  
Who shrinks not at the future when he has a lie to tell,  
But, when you're sick and tired and blue, declares, "You're looking well!"

Here's to the man who tells us lies when solemn truth would hurt,  
Who says, "I'll back you through and through, if it should take my shirt."  
Who, when you're "off" and cannot write just as you think you should,  
Will tune you up for better things with, "That's what I call good!"

Or, when you paint a picture that is wrong in every part,  
Will make you think the daub is great by saying, "Now, that's art!"  
He lies—but it's in charity, if lying ever was,  
So here's his health, for, though he lies, he's honest when he does.
