

DEVOTION

As an inspiration to all mankind, McKinley's devotion to his invalid wife will live for ages.

You men and women of family think of those you love. You desire to have them enjoy only the best you can give them. Are you going about it the right way? Will their future be one of peace and comfort? Will your children be equipped to make a mark in life and so realize that which has been your dearest wish?

Save regrets and remorse by acting now. A few dollars in the bank today forms the nucleus of an independent future and provides your children with the incentive for advancement.

THERE ARE MANY GOOD REASONS WHY WE HANDLE LITCHFIELD MANURE SPREADERS

Down to the smallest part Litchfield spreaders are constructed to insure the best work in the field with the least strain on the machine, the horses and the driver.

There is more permanent plant food value in fresh stable manure properly spread than in any other known form of fertilizer. A Litchfield spreader will distribute it in an even coat, light or heavy as may be required, all over a field. Manure spread in this manner returns most plant food to the soil at about half the expense and much less than half the work of hand spreading, besides doing away entirely with the most disagreeable part of the job.

COME IN AND LOOK THEM OVER.
