Mrs. Mary Brusnigham of Gardner, today was feted at a reception in honor of her 100th birthday by relatives and friends.

HOWARD P. BURKHART is holding the chicken hawk which he hit and killed with his car about two weeks ago. The wingspread of the hawk measured 53½ inches. Howard and his family were riding along in their car on a gravel road one mile south and about one mile east of Dwight, when the hawk was struck.
