

# PRESS NOTICES

The Chicago Herald and Examiner of Sunday, Feb. 14, printed the name among hundreds of others, of C. J. Ahern, Jr., of Dwight, who participated in the International Radio Test conducted by that paper. All those who were able to hear programs from European stations were asked to send a record of what they heard to the Herald-Examiner office. The record would then be checked up by their log of the different broadcasting stations and the reception verified. C. J. made his report to the Herald and Examiner of the programs heard, described the programs in detail and the exact time received. In reply he received a certificate from the paper verifying his reception of the stations in Honolulu, H. I., and Barcelona, Spain. He also received a certificate from the Herald-Examiner verifying his reception of the station in Belgium.

## Ford and Glenn Here Mon., Mar. 8

Popular Radio Stars From WLS at the Blackstone Monday Night.

Ford and Glenn, the Lullaby Boys from Radio Station WLS, known and admired by all the kiddies and the majority of grownups from coast to coast, will appear in person at Livingston county's most popular theatre, the Blackstone at Dwight, on Monday night, March 8.

Ford and Glenn have presented their stage act at many of the leading theatres throughout the United States, and at every performance the management has been forced to hang out the "Standing Room Only" sign.

There will be two shows at the Blackstone, first show beginning promptly at 7:30 p. m. The doors will be open at 7:00 p. m.

Get the family and come to the theatre early and see and hear these most popular radio stars.

The leather lung promotor looms large again. Radio is enjoying a heavy emmigration from the land of oak and suit. The easy-money gen-try has heard of the soft road to Doughville.

All that is necessary is to take some twisted wire, knobs, some transform-ers, a condenser and a couple of what-roumaycatts and put them in a box and shake well before showing. Be-fore old there is a new radio set born.

The stock salesman will tell you it's a world beater. It's the very thing the world has been longing for be-cause it couldn't be found—but here it is at last. Your savings invested in his marvelous thing will fix you for life. And it will.

The first time one of those fresh boys wants to make some money for you, just remember that the radio companies which have been in business for a dozen years or so are not ped-ling any nice fresh stock. If there are any dividends to be made, they will be pocketed by the men "on the round floor." Looks like it ought to be a hard year for this type of pro- moter.

**HALTING THE CRIME WAVE.**

The solution of the crime wave which is sweeping the country lies in the hands of the lawyers, a speaker before a bar association meeting a few days ago said. He reasoned that if the lawyers of the country made the effort they could halt the sweep of the wave.
