

MISCELLANY.

What is the difference between editors and matrimonial experience? In the former the devil cries for "copy," In the latter the "copy cries like the devil."

A young man generally gives a lock of hair to his sweetheart before he marries her. After marriage she can help herself—and use no scissors.

Where is the identical nose of the bellows that ever smelt a rat? Where is the person who was ever felt for by the heart of an oak? Was any barber ever applied to to shave the beard of an oyster?

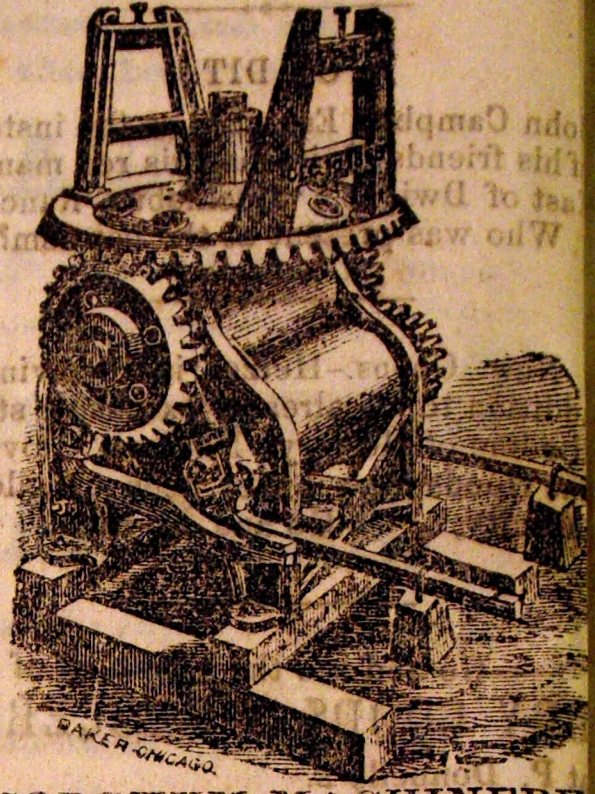

How dark, at times, to all of us is the future; how rayles the heavens above; and friends seem cold, and Godforsaken indeed we feel, when, all at once, in our utter despair, warm hands are extended to grasp ours, tender smiles quicken the sluggish pulse, and hearty tones of sympathy thrill each nerve, and quiver along every heartstring like sweet music from unseen angels' voices and we are comforted.

THE ONLY REALLY ADJUSTABLE CANE MILL
 Long Tried and Well Liked!
FIRST PREMIUMS AT ALL NORTHWESTERN STATE FAIRS
HIGHEST ENCOMIUMS
FROM PRESS AND PUBLIC EVERYWHERE
THE BEST IS THE CHEAPEST!

THE LEVER PRINCIPLE IN OUR MILLS is the only practicable and reliable mode yet applied for giving adjustability to Sugar Cane Crushers, and the lever and weight is, and must always be, the simplest and most unvarying power. With it the cane is pressed drier with less power and less liability of breakage than by any other mode. The Mills have been before the public for several years they are extensively used throughout the entire sorghum growing sections of the country, and wherever used have invariably given entire satisfaction. They have been much improved for the present season, and now embrace points of excellence, aside from the leading feature of the lever, which of themselves place them far ahead of any other Mill in use. We build Mills of different sizes, geared to run by steam, water or horse power; also premium Horse Power very simple in their construction and of great strength; also an Evaporator of our own planning equal if not superior to anything now in use; and, in fact, every article required by Sorghum Manufacturers.

OUR SORGHUM HAND BOOK, containing full descriptions and illustrations of our different sized Mills and Sorghum Machinery, and embracing a treatise on the growth and manufacture of Sorghum, sent free on application.

Parties wanting our machinery should send their orders early, as towards the close of the season we receive more orders than we can possibly fill.
