Article on "Uncle Turner's" hotel last week in which it called the waiters long ear'd ***] was indeed a nauseating dose. A few more Alopathic pills like that, will wind the old gentlemen's hotel completely up. All we wonder at, is, that having eaten up all the old man had to spare, the writer did not indulge his penchant for spoons, and put them in his pocket—truly position sometimes makes the man.

FATAL ACCIDENT.

On Friday last while a coal train bound North was descending the grade between Joliet and Braidwood, the cars came uncoupled, the brakeman on discovering it attempted to stop them, when a train in the rear ran into them, smashing both engine and cars, and it is supposed killing the brakeman, as he has not been seen or heard from since. The coal took fire and at last accounts was burning so as to prevent the clearing of the road. Trains were delayed some ten or twelve hours on that account.

STOLEN!

Dr. Keeley pays into the Star's treasury this week the sum of fifty cents for a notice of the loss of his small Black and Tan dog. The Dr. offers ten dollars to any body who will bring said dog back, and promises as scientific a kicking as was ever administered by the boot of man to the miserable, dirty dog-thief, who stole him.—We have lost the card, as we go to press and the Dr. is in the country and as we cannot delay our issue, the Doctor will have to accept this as our apology.
